

Songa delta drilling rig

Who owns Songa oil rigs?

Songa Offshore operates seven semi-submersibles oil rigs. In 2014, Songa Offshore sold Songa Venus and Songa Mercur rigs to Opus Offshore as a part of the deal creating Songa-Opus joint venture Songa Opus Offshore Drilling Pte Ltd (SOOD) that incorporates Songa's international operations. Ordered Cat D rigs were delivered in 2015.

Which rigs operate from Norway?

At present each of the three rigs operating from Norway are engaged on long-term contracts. Songa Dee is working on a five year contract with Statoil on the Gullfaks field, whilst Songa Trym is also employed by Statoil for the Troll field, and Songa Delta is contracted with Det Norske.

Who are Songa Dee & Songa Delta?

Songa Dee is working on a five year contract with Statoil on the Gullfaks field, whilst Songa Trym is also employed by Statoil for the Troll field, and Songa Delta is contracted with Det Norske. Both Songa Trym and Songa Delta are currently being externally managed but will be taken back over by Songa Offshore in mid 2012.
