

Special oil for mining rock drill

The pneumatic rock drill, also called a jackleg drill, was the most versatile rock drill used at the Homestake Mine and mines worldwide. This drill ...

Coastal Premium Rock Drill Oils are blended from highly refined base oils and special additives which produce an outstanding lubricant for air powered equipment. The naturally high viscosity ...

TECHNICAL SPECIFICATION Sandvik HLX1 hydraulic rock drill is designed for small diameter holes. Typical application is drilling / bolting in confined environment with Sandvik DS211L-M ...

Sandvik RD414 is a compact hydraulic percussive top hammer rock drill. It drills with air or water flushing. The rock drill is equipped with a stabilizer to control contact between the drill bit and ...

Sandvik RD927L is a hydraulic top hammer rock drill designed for Surface tophammer rigs. It is capable of drilling 89 - 140 mm holes up to 36 meters in depth. Optimal hole range is from 89 ...

Sandvik RD535 is a hydraulic percussive rock drill with independent reversible rotation and low profile height. It is known of its hydraulic efficiency and high penetration rate. Sandvik RD535 ...

TECHNICAL SPECIFICATION Sandvik DT821 is a two-boom electro hydraulic jumbo for fast and accurate drilling in tunneling and cavern excavation. The hydraulic controlled drilling system ...

It is one of the most influential products driving oilfield drilling these days and Brama Carbide has the proper high tech tools, parts and equipment to help dominate the oil and gas sector. Drill ...

Sandvik RD314 high-frequency hydraulic rock drill is designed for bolting and face drilling rigs. Sandvik RD314 can be used in electrically-controlled and hydraulically-controlled Sandvik drill ...

TECHNICAL SPECIFICATION Sandvik HL510 S/F hydraulic rock drill is designed for face, bolt and long hole drilling. Sandvik HL 510S is used in DL Series long hole drilling rigs.

ZERO EMISSIONS UNDERGROUND DEVELOPMENT Sandvik DD422iE is the mining industry's first highly-automatic development jumbo with an electric driveline system, engineered to meet ...

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For example; oil and gas, construction ...

Sandvik HL1560ST is a heavy-duty hydraulic rock drill designed for large diameter longhole drilling. The

Special oil for mining rock drill

construction of the rock drill is based on three body modules tied together with ...

In this article we will discuss about the types of drilling methods used in mining. The types are: 1. Percussive Drilling 2. Rotary Drilling. Method # 1. Percussive Drilling: In this method which is ...

TECHNICAL SPECIFICATION Sandvik HLX5 hydraulic rock drill is designed for face, bolt and long hole drilling. Sandvik HLX 5 is standard rock drill for example in Sandvik hydraulic ...

Rock drilling is the use of tools to break or drill rock and plays a critical role in various sectors, including mining, where it's used for resource ...

Sandvik HL1560T is a heavy hydraulic percussive rock drill with independent rotation and separate flushing, which ensures high reliability. It is equipped with hydraulic actuator ...

The HL710S hydraulic rock drill is designed to ensure high drilling capacity, easy maintenance and low operating cost. The construction of the rock drill is based on the main body modules ...

Special lubricant for pneumatic hammers and pneumatic driven tools. Contains selected molybdenum-disulfide components which form at severe working conditions and intermediate ...

PURUS ® Rock Drill Oils are blended from highly refined base oils and special additives which produce an excellent lubricant for air powered equipment. The naturally high viscosity index ...

The RD921S is a heavy-duty hydraulic rock drill designed for medium diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with short side ...

These premium Rock Drill Oils are blended from highly refined base oils and special additives which produce an excellent lubricant for air powered ...

Developed for internal lubrication for oil lubricated pneumatic equipment as well as for rock drills, jack hammers, pile drivers, chippers, pavement breakers and riveters. The high viscosity index ...

TECHNICAL SPECIFICATION Sandvik HL650 hydraulic rock drill is designed for drilling 64- 102 mm diameter holes. Sandvik HL650 is used in Sandvik surface drill rigs. Sandvik HL650 is a ...

Rock drill oil is a highly specialized lubricant formulated to withstand the severe operating conditions encountered in pneumatic rock drills. Its composition is carefully balanced ...

D-A Rock Drill Oil is specially designed for use in extreme working conditions with percussive pneumatic tools, down-the-hole (DTH), and surface drilling equipment.

Special oil for mining rock drill

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

RDX5 rock drill is known for its exceptional durability. The robustness is achieved by less pressurized seams and simple design with only two moving parts. The design of the rock drill ...

TECHNICAL SPECIFICATION Sandvik RD535 hydraulic rock drill is designed for face drilling on Sandvik tunneling jumbos. It is also suitable for bolt hole, exploration and injection hole drilling.

We've been involved in the mining and steel industry since the 15th century. All that know-how is built into all our rock drilling tools - for your benefit.
