

## Steel wire rope for drilling rig

This high performance steel wire rope was designed to cope with bending stresses in a permanently loaded state. Extremely cost-effective due to its non-compacted rope construction.

These steel wire ropes are designed to increase the productivity on rigs and minimize downtime. A wide range of gas & oilfield wire ropes can be supplied ...

The various lines for rotary drilling rigs require a complex balance of wire rope characteristics: abrasion resistance, crush resistance, fatigue resistance, strength, bendability and stability.

OSHA has a safety factor of 3 for all hoist lines except for rotation-resistant wire rope, which has a safety factor of 5 for drilling use.) Since these ...

A:Drilling rig equipment and the related spares for the oil and natural gas industries. Like Rig Components, Drawworks Spare parts and Mud Pump Spare parts, Hydraulic Disc ...
