

The Unsung Hero: Understanding the Substructure in Drilling & Well Completion In the grand scheme of oil and gas exploration, the towering derrick or mast might grab the most attention. ...

Substructures are the structural components of land and water-based oil platforms which support the derrick, mast, or other rig components, as well as ...

For deeper wells and longer horizontal runs, the rig you have may not cut it. Click to see how Veristic can help you increase the ratings on your mast and ...

Land rigs As mechanization made the hunt for hydrocarbons more efficient, it had a direct effect on land rig design. The first land rigs were permanent wooden structures and would be left in ...

Made from quality steel and manufactured strictly to API Spec 4F, Sovonex(TM) substructures are exceptionally stable and robust, creating the perfect stage ...

For cost-effective options, we offer a range of used drilling rig substructures that have been thoroughly inspected and tested. Each used substructure meets ...

Industry-leading design for land drilling rigs Based on a legacy of more than 1 000 Pyramid™ masts and derricks since 1956, HMH provides mast and sub structures according to your ...

Home > Products > Drilling Products > Drilling Equipment > Substructures Box-on-Box, Slingshot and Swing-lift Type Substructures (API 4F) We supply box ...

This document provides a template and instructions for companies to develop assembly manuals for masts and substructures. The introduction ...

Find Substructure Drilling Rigs related suppliers, manufacturers, products and specifications on GlobalSpec - a trusted source of Substructure Drilling Rigs information.

The substructure is one of the important components of the truck-mounted drilling rig and the workover rig, which consists of the boat basement, mast substructure, substructure body, ...

We supply cantilever and bootstrap type masts (API-4F) with static hook load 500,000, 750,000, 1,000,000 and 1,500,000 lbs for land and offshore drilling rigs. The cantilever masts are ...

The above drilling rigs have used a variety of in-house substructure designs, including Step Down, One-Piece,

Substructure drilling rig

Box on Box and Self-Elevating. Each substructure design can accommodate ...

In drilling, the standard derrick has four legs standing at the corners of the substructure and reaching to the crown block. The substructure is an assembly of heavy beams used to elevate ...

Integrate efficient, easy rig-up and rig-down with structural strength. Move the rig forward, backward, or sideways. Increase safety while adhering to recognized ...

A pony substructure, for use in supporting substructures of drilling rig operations, which includes two parallel oriented frames and two outriggers attached to each frame. In preparation for ...

The front of the substructure is taller, meeting the requirement of standard BOP installation. The back of the substructure is lower, meeting the installation requirement of heavier power ...

CZM is the leading foundation drill rig supplier in North America. We offer a comprehensive line of drilling rigs engineered for a variety of foundation ...

Abstract--Oilfield offshore and onshore drilling rig structures are center part of oil and gas exploration because the rig derrick and mast structures are essential piece of equipment for ...

We design and manufacture mobile drilling rigs of up to 225-tons max. hook load capacity. The design and manufacture of our mobile drilling rigs follow technical standards in related API. ...

In drilling operations, the derrick and substructure are essential components, designed to bear tremendous loads and ensure operational efficiency. Misjudging their load ...

Use specific keywords: Combine terms like "substructure," "drilling rig," "well completion," "offshore platform," and "design" to refine your search. Utilize quotation marks: Enclose ...

DSL offers a range of Masts and Substructures for workover rigs and drilling rigs ranging from 150 - 500,000 lb hook load capacity in single or double stand set ...
