

Tangtuo TD55SH down-the-hole drill rig

integrated

The ZT10 integrated down the hole drill rig for open use is a new drilling device developed by Kaishan Group after years of development and production of ...

Our integrated surface down-the-hole drilling rig is equipped with a powerful engine that enables operators to maximize productivity.

The KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine,stonework blast ...

Our KT5C Integrated down the hole drill rig for open use is an advanced drilling device with an integrated screw air compressor system. The equipment is compact in structure and mobile ...

The KT20 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of ...

Down-the-hole D470D drill rig: drills 138-165mm holes up to 30m deep, with a Cummins engine, heavy-duty boom, and 21m³/min compressor. 2000-hour/1 ...

D440+ Integrated Down The Hole Drill Rigs Compact of bench blast ...

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression system and hydraulic ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw ...

Kaishan Integrated down-the-hole Drilling Rig KT9D can reach the Depth Max 24m, Diameter90-130mm, f: 6-20 hardness.If you want to learn details, please conta...

The integrated down the hole drill rig is a self-propelled rock drilling equipment that incorporates the power system (usually a diesel engine and an air compressor), drill arm, drilling ...

TDS ROC S55 is a full-hydraulic down-the-hole drilling rig with excellent performance. The machine is equipped with two-stage high-pressure high-power screw head, high-efficiency ...

Tangtuo TD55SH down-the-hole drill rig

integrated

Compared with traditional split drilling rigs, the integrated design highly integrates the power system, control system, pneumatic system and crawler chassis to form a compact, stable and ...

Integrated Down The Hole Drill Rigs D440+ compact size but powerful drilling capability. Applicable in surface quarry mining and varieties of bench blast ...

The KT9D integrated down the hole drill rig rock drilling rig The KT9D integrated down the hole drill rig for open use is an advanced drilling device integrating ...

The ZT11 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes. ...

The split down-the-hole drill rig, with its split design, is convenient and fast to move, can quickly respond to drilling needs in different areas, and improve construction efficiency.

Capable of operating with both down-the-hole hammers and auger spiral drills, this robust rig is renowned for its high efficiency, strong torque, wide drilling diameter range, and superior ...

It excels in production drilling and auxiliary applications such as toe-hole drilling. This smart, rugged machine features automatic rod handling, a unique aluminium feed, and an intelligent ...

The JL452H integrated down the hole drilling for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor system. It is capable of ...

The integrated down the hole drill rig is a self-propelled rock drilling equipment that incorporates the power system (usually a diesel engine and an air ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH blasthole drilling in mining, quarry and ...

The KT5C Integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor ...

Our KT15 integrated surface DTH drilling rig is designed by drawing inspiration from previous models. It can satisfy most needs of operators by providing a ...

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression ...

Categories: All Products, Kaishan Drilling Rigs, Rock Drilling Tools Description: The KT11 integrated

Tangtuo TD55SH down-the-hole drill rig

integrated

surface DTH drilling rig utilizes a single Cummins three-cylinder diesel engine with ...

Effect of use: Our crawler-integrated down-the-hole drill rig easily adapts to rugged mountain roads with its excellent off-road performance. Its efficient ...

We're professional integrated down the hole drill rigs manufacturers and suppliers in China, specialized in providing high quality products and service. We ...

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring machine operations in mining.

The integrated open-pit down-the-hole drilling vehicle is an advanced drilling equipment that integrates the down-the-hole drilling system and the screw air ...

KT11 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes.
