

Tieback drill rig

Enhance casing integrity even with extended well depths The metal-to-metal, gas-tight liner tieback connects liners to a tieback string of casing with a permanent seal capable of ...

A tieback is made by first drilling a hole with an auger and then placing a bar (tendon) in the hole, concrete is then poured in the hole and the connection ...

The TE1000 is a new concept in drifters for civil TEI 1000 engineering. It reduces percussion energy and frequency when the drill string is not engaged. The ...

Developed for practical application: KLEMM Bohrtechnik develops and manufactures rigs and drilling equipment for drilling in specialised foundation engineering. Numerous patents speak ...

Fresh start: Tie-back liners provide a pristine upper casing section, untouched by drilling. Critical testing: Conduct safe and controlled testing in sensitive areas with liners. ...

When it comes to anchor, tie-back, and tie-down equipment, Malcolm Drilling owns a large fleet of Klemm dual rotary drill rigs and tools suitable for all types of drilling conditions.

Comacchio Drill Rigs & Drilling Tools Hammer & Steel, Inc., sells and rents the Comacchio CH, MC, and MC-E Lines of drill rigs and drilling tools.

Drilling riser joints with buoyancy modules A drilling riser is a conduit that provides a temporary extension of a subsea oil well to a surface drilling facility. Drilling risers are categorised into ...

Tiebacks to reinforce a slurry wall at Ground Zero, New York In geotechnical engineering, a tieback is a structural element installed in soil or rock to transfer ...

The SM-9 is a multipurpose drilling rig. Its modular design is engineered for the execution of: micropiles, tie-backs, jet-grouting, coring, drain, water wells.

Casagrande M9 micropile/tieback rig is available at our Tahlequah, OK Venture Drilling Supply location. The Casagrande M9 drill is a versatile rig that can run ...

"Petroleum Engineering: Drilling and Well Completion" by William C. Lyons: This comprehensive text covers well completion techniques, including tie-back methods, in detail. "Oil Well ...

Tieback drill rig

The new SM-11 is a 25,000-pound micropile/tieback drilling rig that offers high performance and efficiency in a compact size. This top-performing rig uses ...

Drill Tech Drilling & Shoring, Inc. is an industry leader in ground anchor solutions. Our ground anchor drill rig fleet consists of several dozen machines, including conventional Klemm 803, ...

The tieback can either be drilled directly into a soldier pile, or through a wale installed between consecutive piles. After inserting the tiebacks into the ...

Tiebacks Home > Services > Earth Retention > Tiebacks Tiebacks Tiebacks (or Anchors) are engineered tensile elements used to provide temporary or permanent lateral support for earth ...

Equipment In Action Tieback and Micropile Piling Rigs Limited Access Drilling Jet Grout and Soil Mixing Equipment Mast Attachments Monitoring Equipment ...

Tieback Construction We offer comprehensive services with tieback anchors, consisting of either high-strength steel bars or strand anchors, with a bond zone and a free length. This system is ...

The new SM-11 is a 25,000-pound micropile/tieback drilling rig that offers high performance and efficiency in a compact size. This top-performing rig uses advanced technology and strong ...

Soilmec SM-14 is a multipurpose drilling rig. Its modular design is engineered for the execution of: Micropiles, Tie-backs, Jet-grouting, Drain, Water wells. The ...

Need limited access tieback and micropile drilling solutions? Hennessy International provides specialized rigs, high-performance Tecniwell grout plants, and expert support for your next ...
