

Truck mounted water drilling rig for sale

What is a truck-mounted drill rig?

Truck-mounted drill rigs are a type of mobile drilling equipment affixed to a truck chassis, providing excellent mobility and flexibility for various drilling operations.

What is a water well drilling rig?

These water well drilling rigs are not to be confused for the other types of drilling rigs as these are specifically designed to reach water-bearing rock formations that are deep beneath the earth's surface. Ritchie List is proud to offer a large selection of used water drilling trucks for sale by owners who are near you.

What can a truck mounted drilling rig do?

Our truck mounted drilling rigs can test rock, sample subsurface mineral deposits, test soil and groundwater physical properties, and more. A truck mounted drilling rig is a system that drills wells and large holes for projects throughout Australia. They are highly mobile.

What is a track mounted drill rig?

Geotech operates a fleet of track mounted drill rigs throughout our operations. Outfitted with a track system, these rigs are perfect for difficult access locations, where access conditions are difficult. Our track rigs have been designed to service many industry sectors including; construction, mining, oilfield, dams, and pipeline investigation.

What is a small rotary drilling rig?

A small rotary drilling rig is a versatile and cost-effective option for drilling residential water wells. These rigs can drill boreholes up to 500 feet deep and 6 to 12 inches in diameter, depending on the size of the rig. They are typically mounted on a truck or trailer and can be easily transported to the drilling site.

What kind of drilling rig do I Need?

Auger drilling rigs are a good option for drilling shallow residential water wells in areas with loose soils, such as sand and gravel. These rigs use a helical screw blade to dig into the ground and remove soil, creating a well. Auger drilling rigs can drill boreholes up to 100 feet deep and 2 to 6 inches in diameter.
