

Underground core drilling rig

The Underground Core Drilling Rig is designed especially for underground 360° drilling work, capable of diamond core drilling and other advanced drilling works.

Our underground core drill rigs have been on every continent in a variety of applications and are easy to operate and transport. These rigs are regularly used for surface applications such as ...

FORWARD Make your drilling more efficient The machines in the rugged FORWARD UN6 (Pilot Hydraulic Control) utilize well-proven technology. It can perform above or below ground in a ...

For underground core drilling exploration tasks, Epiroc offers the well-established and trusted Diamec range of machines. Diamec rigs are available in a wide ...

TECHNICAL SPECIFICATION The SCX DE140 is a compact and powerful drill rig designed to meet the requirements of harsh underground environments. The lifting capacity and feed force ...

Wuxi Zhongjin Mineral Exploration Tools Co., Ltd.: Welcome to buy the best underground drill rigs, core drill rigs, engineering drill rigs, core barrels and overshots, drilling accessories for ...

The Core Drilling Process Core drilling is a specialized method for extracting a cylinder-shaped sample from the rock or sediment materials under the ground. Unlike ...

The underground core rig with rod handling capabilities can core up to 600 meters of PQ. Unlike other drill rigs within Indonesia, it can directly handle P-sized ...

What do you get when you take one of the most respected underground core drilling rigs on the market and fuse it with a well-proven and reliable carrier? You get the all ...

It can perform above or below ground in a wide range of core drilling applications. The FORWARD UN6 rig are adaptable and can be tailored to fit the unique needs of your ...

Titan HD - Track Mounted Diamond Core Drill MPP's track-mounted heavy-duty, deep hole core drill. The Titan HD features Cat 312L steel tracks, telescoping ...

Designed to drill short holes in tight spaces The rugged and compact Diamec 232 core drilling rig is quick and easy to set up thanks to its compact design and light weight. It's ideal for drilling ...

Our underground core drill rigs have been on every continent in a variety of applications and are easy to

Underground core drilling rig

operate and transport. These rigs are regularly ...

Exploration Drill Rigs Sandvik offers a wide range of exploration drill rigs for surface and underground exploration drilling. The exploration drilling equipment ranges from lightweight ...

Boart Longyear offers diverse underground coring drilling solutions perfectly tailored for each project - delivering safe and productive meters. Our modular coring rigs and mobile platforms ...

Our underground core drilling rigs are designed to operate in confined spaces with powerful, efficient systems. These rigs provide high precision and excellent core recovery, essential for ...

High performance underground Core drill rig model Mini-Max 517-c on a track mobile. This drilling rig is specially built for underground purposes. It could be dismantled at the surface and down ...

For underground core drilling exploration tasks, Epiroc offers the well-established and trusted Diamec range of machines. Diamec rigs are available in a wide variety of forms.

Our core drilling rig include surface core drilling and underground core mining, mainly use wireline diamond core drilling technology, depth capacity from 50m to 2500m drilling capacity.

Explore high-performance underground drill rigs and core drilling equipment built for efficiency, power, and durability in tough underground conditions.

Helicopter Drilling DA Smith is experienced with helicopter-access core and rotary drilling in remote locations for mining and civil projects. DA Smith possesses ...

Discover what underground drilling rigs are, how they work, key types, and their applications in mining, tunneling, and construction projects.

The full hydraulic underground drilling rig is applied to the following fields: coal, metallurgy, geology and engineering, etc. Specifically, as a kind of underground diamond core rig, it is ...

High performance underground Core drill rig model Mini-Max 517-c on a track mobile. This drilling rig is specially built for underground purposes. It could be ...

Terracore range covers a complete package of in-the-hole equipment. Conventional and wireline core barrels, drill rods and casings, core boxes, additives, adapters and fishing tools, not to ...

Product description The compact design of the Diamec 232 underground core drilling rig makes it ideal for core drilling in narrow tunnels or in galleries. The Diamec 232 is quick and easy to set ...
