

Underground diamond drill rigs for sale

What are Australian underground drilling rigs?

Australian Underground Drilling mobile underground drilling rigs have 360 degrees drilling capability including the ability to drill steep up-holes. Rig power and set-up covers the entire drilling scope from grade control to deep exploration wire line.

What types of drill rigs are available?

The Drill Source database of drill rigs suitable for Reverse Circulation, Down Hole Hammer, Diamond Core, Sonic, Geothermal, Geotechnical, CSG, Environmental, Oil and Gas, Water Well, Mineral Exploration, RAB, Air Core and Blast Hole Drilling requirements.

Do you need underground diamond core drilling solutions?

You need underground diamond core drilling solutions for both shallow and deep hole, small and large diameter core, including wireline and conventional. For your next underground core drilling project, insist on the best rigs and tooling for the best results. Boart Longyear manufactures rods with various thread types to meet your drilling needs.

Which Boart Longyear rig is best for drilling deep holes?

The LM(TM)90 is the largest Boart Longyear underground diamond coring rig and is suited for drilling deep holes. Equipped with a 29,000-lb feed frame, this drill provides high pullback force as well as a relatively quick rod-handling rate. The feed cylinder is reversible for increased up-hole drilling capacity.

Do you need a rod for diamond core drilling?

Whether you need our Q(TM) thread for standard depths, our RQ(TM) for deep holes, HD thread for wide diameter or WJ for conventional drilling, we have a rod to meet your diamond core drilling needs. Diamond bits are highly versatile - capable of adjusting from one ground formation to another.

What is a 29,000 lb feed rig?

Equipped with a 29,000-lb feed frame, this drill provides high pullback force as well as a relatively quick rod-handling rate. The feed cylinder is reversible for increased up-hole drilling capacity. The rig is modular in design with a number of options which make it easier to tailor to specific needs and to upgrade when requirements change.
