

Underground drill rig

Are Epiroc rigs good for blast hole drilling?

Epiroc's rugged face drilling rigs are built for blast hole drilling in underground mining and tunneling. Choose your model of jumbo here and read more! Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling.

What is a mine Master drill rig?

Mine Master drill rigs (also known as underground drill rigs, master rigs or face drilling rigs) are primarily utilized in underground mines (hard rock & soft materials) and tunnel construction.

What is a horizontal drilling rig?

A horizontal drilling rig is the basic equipment of every contemporary underground mine excavating the hard rocks, and effectiveness of the whole mine depends largely on the quality and reliability of mining rig.

What is a Simba long hole drilling rig?

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling. Epiroc offers the most comprehensive line of rotary blast hole drilling rigs in the industry.

What types of underground drilling machines does mine Master offer?

Mine Master offers a diverse range of underground drilling vehicles designed for various conditions, including low or narrow excavations, challenging climatic conditions, or situations where a single machine needs to create blast holes over a large surface area. Depending on the variant, these machines are available as single or twin boom jumbos.

Who makes rotary blast hole drilling rigs?

Epiroc offers the most comprehensive line of rotary blast hole drilling rigs in the industry. With a multitude of configurations to choose from you can find the perfect solution for your needs. Discover our wide range of surface drilling equipment within mining, quarrying, construction, civil engineering and the dimension stone industry.

Our full selection of mining and surface equipment for rock drilling, crushing and screening, loading, tunneling, quarrying, breaking and demolition.

Directional boring Directional boring machine Directional boring, also referred to as horizontal directional drilling (HDD), is a minimal impact trenchless method ...

Experience efficient underground drilling with the DD322i drill rig by Sandvik. This advanced drill rig

Underground drill rig

combines technology and performance for optimal mining results.

We engineer an extensive range of underground drill rigs for mining development and production. Available in a variety of feed lengths, boom configurations and size classes, our underground ...

Simply put, an underground rig is a structure or piece of equipment designed to carry out drilling, excavation, and extraction activities in underground ...

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground ...

Underground drill rigs are our specialty. Explore one of our eleven jumbo drills, each differing in application, size, power system and number of booms.

Underground Rock Drills Our range of surface rock drills is ready to tackle any job: horizontal or vertical, light or heavy. Our light pneumatic rock drill can drill ...

Environmental Drilling At Underground Sonic Drilling Services Inc. our focus is to reduce your project completion time, produce highly representative overburden and rock samples, and ...

Select a sturdy underground drilling rig How do I choose subsurface drilling equipment? Firstly, we must ascertain the purpose of the underground drill rigs. Furthermore, ...

Our underground drilling rigs are crafted with high quality materials and are suitable for high temperature and high humidity underground mine and tunnel environments.

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

Wuxi Zhongjin Mineral Exploration Tools Co., Ltd.: Welcome to buy the best underground drill rigs, core drill rigs, engineering drill rigs, core barrels and overshots, drilling accessories for ...

Different underground drills are used for various purposes. They help scientists get different kinds of samples from the ground. On the other hand, they make it easier to get ...

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

For narrow vein mining Sections from 2.4mx2.4m up to 4mx4m Room and pillar drilling methods, as well as breasting methods Articulated and rear axle ...

Underground drill rig

Explore the precision and efficiency of the Sandvik DD422iE electric drill rig, a top-notch solution for development drill rigs in mining operations.

Mine Master offers a diverse range of underground drilling vehicles designed for various conditions, including low or narrow excavations, challenging climatic ...

Our drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

An underground drilling rig is a specialized machine designed to bore holes beneath the earth's surface, primarily for mineral extraction, geological ...

The underground jumbo drill rigs from Epiroc are used for blast hole drilling in underground mining and tunneling. The rigs are equipped with up to four ...

Directional drilling is a highly specialised method of drilling operations whereby hole direction is carefully controlled and monitored in order to hit a specific ...

Discover what underground drilling rigs are, how they work, key types, and their applications in mining, tunneling, and construction projects.

Enhance your longhole drilling efficiency with the Sandvik DL421 drill rig, a robust and efficient solution designed for underground mining.

Underground drilling in hard rock environments presents unique challenges, demanding specialized tools that can withstand immense ...

Underground Drilling Rigs - Horizontal & incline tunnel dev ensure faster drilling. Have an impact on safety as operator drills from safe & supported area.
