

Unit drilling rig 201 pictures

How many rigs does Unit Drill?

Unit Drilling Company was founded in 1963 with three drilling rigs. Today, the company operates 14 onshore drilling rigs in various regions throughout the United States. Unit is focused on its core operating basins in Texas, Oklahoma, Louisiana, and New Mexico.

What is Rig 201?

Rig 201 is the structure that for more than 20 months towered along Interstate 40 in Elk City. The unit provided many interstate travelers their first close view of a working oil rig. The 30,000-foot Elk City bore hole turned out to be one of the costliest dry holes in Oklahoma history.

How deep can Rig 201 drill?

Rig 201, capable of drilling to 50,000 feet, almost 10 miles deep, is considered the flagship of Parker's fleet of 147 land drilling rigs. Spudding of the well will take place about Oct. 1 and is expected to be the deepest drilling operation in the United States since Parker drilled a well to almost 30,000 feet in Elk City in the early 1980s.

Who is unit drilling?

Unit is focused on its core operating basins in Texas, Oklahoma, Louisiana, and New Mexico. With over 60 years of experience, Unit Drilling offers super-spec, pad-optimal rigs with excellent crews. Unit prides itself in its rig crews and an unmatched level of professionalism.

Is Parker Drilling's Rig 201 the world's deepest-capacity drilling rig?

Parker Drilling Co.'s flagship Rig 201, the world's deepest-capacity land drilling rig, has been signed up for another "super deep" natural gas venture in the deep Anadarko Basin of western Oklahoma.

Who christens Rig 201?

The largest land derrick in the world, Rig 201 is well on its way to setting a record drilling depth of more than 33,000 feet. The rig's birthday party last June attracted a crowd of celebrities. U.S. Energy Secretary James Edwards, Gov. George Nigh, several senators and some other politicians all were on hand to christen the derrick.
