

Where can I find a technician to repair a down-the-hole drill

Where can I find the best tool repair near me?

Find the best tool repair services near you on Yelp. Explore other popular local services near you from over 7 million businesses with over 142 million reviews and opinions from Yelpers.

What is a tool repair service?

Our tool repair service is done by experienced technicians or mechanics who either specialize in specific construction tool repairs or a variety of power tools. The exact process depends on the complexity of your tools, the severity of the damage, and the fixes they need. Booking with us for the first time?

How do I submit a tool repair?

Download the ON!Track mobile app to submit a tool repair in just a few clicks - even if you're not an ON!Track customer. Visit one of our Hilti Store locations to drop a tool off for repair. Start a Live Chat or send a message to a Customer Service representative.

Should I replace my drill if it runs intermittently?

If your drill tends to run intermittently, you don't have to replace the whole thing. Instead, book a drill repair near you through Airtasker, and our handymen can come right away to sharpen, adjust, and repair the drill, or even replace specific parts.

What tools do you need to fix a broken lawn mower?

Some of the most standard tools include a lawnmower, string trimmer or edger, electric spreader, and leaf blowers. In case any of these tools started to show any defect or signs of wearing, our tool repair experts can immediately come to your house on request and perform all the necessary repairs so you can use them again as soon as possible.

Can a handyman repair a drill?

Instead, book a drill repair near you through Airtasker, and our handymen can come right away to sharpen, adjust, and repair the drill, or even replace specific parts. Construction cutters, chainsaws, saw blades, and grinders are used to remove pieces of concrete, ceramic tiles, wood, and metal, among others.
