Where are Chicago rotary screw air compressors made?

Chicago Pneumatic and ALUP rotary screw compressors are manufactured in Europe and offer modern design, proven technology, and reliability. Chicago Pneumatic rotary screw air compressors are built on the very robust platform and feature state of the art controller and high-efficiency screw element.

Are screw compressors a good choice for your business?

Screw compressors are a reliable choice for businesses that need a steady, uninterrupted flow of compressed air. Thanks to their rotary screw technology, these machines operate efficiently and with low vibration--even during long hours of use.

Where are alup air compressors made?

For power above 45 kW we offer ALUP air compressors, designed and manufactured in Europe. We installed Alup rotary screw air compressors at dozens of sites in New Zealand for food processing, at timber plants and other industrial sites.

What is a rotary screw compressor?

Rotary screw compressors are suitable for these industries: Key features: Smart controllers that monitor, control and protect the compressor from failures by shutting down the compressor whenever necessary. What is the benefit of a variable frequency drive (VFD)? The biggest cost of compressor ownership is electricity use.

Which rotary screw compressor series is best?

KAESER's BSD, CSD and CSDX rotary screw compressor series comprise energy saving ideas in every component. This series is designed with energy efficiency at the forefront, featuring large air ends and Sigma Profile rotors. They cater to a wide range of compressed air demands with fluid-injected technology.
