

Which electric air compressor is better in Deyang

How is a compressor rated?

Compressors are rated by the volume of air delivered at 90 psi. This number is expressed in cubic feet per minute (cfm) or standard cubic feet per minute (scfm). Compact compressors move less air than much larger units, typically producing between 1.0 and 2.8 cfm. That's still plenty of power to run most air tools.

What is the best brand of air compressor?

Best Air Compressor Brand? This depends on what application the air compressor will be used for. Brands like Dewalt, Makita and California Air Tools produce the best portable air compressors for home use. Ingersoll-Rand and Atlas-Copco are the go-to brands for industrial air compressors.
