References:

Should I hire an oil field accident attorney?

When you hire an oil field accident attorney, they will review the facts of your case to help determine whether you have a potential personal injury lawsuit. It is always in your best interest to file a personal injury lawsuit when you can because it can lead to more compensation.

What should I do if my oil rig accident is fatal?

If an oil rig accident results in a fatal injury, it's crucial to report the accident and the fatality immediately. With the drilling company and its insurer likely to minimize compensation, it's up to you to protect your family's future.

How do oil field accident attorneys work?

Most reputable oil field accident attorneys work on a contingency fee basis, which means that you owe nothing until your attorney settles your case or wins a verdict. A contingency payment structure levels the playing field, so you can hire the best attorney for your case even if you are short on funds. Related Articles:

Who is liable for an oil field accident?

Working with a reliable oil field accident lawyer can help you understand who may be liable for your injuries, including: Your employer. You may be able to file a claim against your employer under the right circumstances. Most states' workers compensation laws limit when and how you can sue your employer for on-the-job injuries.
