

# Youtube world s largest drilling rig

What is the largest oil rig in the world?

1. Berkut Oil Rig The Berkut oil rig, located off the Russian Pacific coast near the island of Sakhalin, is the largest oil platform in the world. Weighing approximately 200,000 tons and situated 35 meters deep from the seafloor, this engineering marvel has an estimated maximum oil extraction capacity of 4.5 million tons annually.

What is the largest semi-submersible drilling rig ever built?

One of the largest semi-submersible drilling rigs ever built is the Ocean Great White, delivered by Hyundai Heavy Industries to Diamond Offshore. This massive rig measures 123 meters in length and 78 meters in width, capable of operating in waters up to three kilometers deep.

Which offshore drilling rig exemplifies human creativity?

As far as offshore drilling technology goes, the Scarabeo 9 exemplifies human creativity. Transocean's Deepwater Nautilus holds the record for setting the water-depth record of 7,785 feet in the Gulf of Mexico. This semi-submersible rig has played a significant role in the discovery of oil reserves, including the Great White field.

Which rig is best for offshore drilling?

The Ocean Great White's draft of 23 meters and transit speed of eight knots make it a versatile and efficient rig. Saipem's Scarabeo 9 is a sixth-generation ultra-deepwater rig designed for drilling at impressive depths of up to 12,000 feet. This behemoth of a rig is owned by Saipem and has proven its capabilities in various offshore projects.

What are the biggest semi-submersible rigs?

The rigs are dynamically positioned semi-submersible with eight four megawatt thrusters and have a transit speed of seven knots. Explore offshore marvels like the Ocean Great White and Hai Yang Shi You 981, showcasing the capabilities of the biggest semi-submersible rigs.

Which polar rig is best for deep water drilling?

Operational Flexibility: With its ability to drill in shallow and deep waters, the Polar Pioneer showcases versatility, making it a valuable asset for exploring untapped reserves in the polar regions. The Thunder Horse PDQ is one of the world's largest and most advanced semi-submersible rigs, designed explicitly for deep water drilling.

No title - World's largest oil rig drills for oil and natural gas off Victoria coast. Australia. L/S's of the giant oil rig Sedeo 135E. M/S men working round the drill. C/U drill mechanism.
