

Zigong belt screw air compressor

Where can I buy a replacement air compressor belt?

Buy your replacement air compressor belt for any piston or rotary screw air compressor. Our belts are also used on blowers and vacuum pumps and systems. Buy your replacement belt from Compressor World.com.

What happens if a compressor belt slips?

Unlike cars, most compressors will not make an audible squealing noise when belts are slipping. Slipping belts may cause nuisance circuit breaker tripping, excessive vibration and may rip motor mounts apart from sudden snatching of belts in spinning pulley. Loose belts may cause overheating and a possible belt fire.

How often should air compressor belts be replaced?

Belts should be replaced at least every two to three years. When should I replace my air compressor belt? Glazed, brittle or cracking belts must be replaced. Unlike cars, most compressors will not make an audible squealing noise when belts are slipping.

Who is screw compressor technologies?

Screw Compressor Technologies (SCT) located in Buffalo, New York has been in the air end rebuilding business since 1980. SCT will rebuild and restore any air and gas compressing unit to their Original Equipment Manufacturer (OEM) specifications.
